

PRESS RELEASE

Sphere 3D Opens New Headquarters

Mississauga, ONTARIO, May 31, 2011 – Sphere 3D (“Sphere” or the “Company”), a cloud based solution provider dedicated to harmonizing the hardware to software incompatibility gap, today began operations at its new headquarters in Mississauga, Canada. This relocation more than triples the square footage occupied by the company in anticipation of planned growth.

"We are extremely happy with our relocation to our new offices," said Mario Biasini, Sphere's president. "The property is a wonderful standalone building that is conveniently located near highways and a few kilometers from Toronto's Pearson International Airport".

Formed in 1974, Mississauga is now recognized as Canada's 6th largest and fastest growing major city with a population of 729,000 residents representing cultures from around the world. With close to 55,000 registered businesses employing more than 425,000 people, Mississauga is home to 61 Fortune 500 Canadian or major divisional head offices and 50 Fortune Global 500 Canadian headquarters.

About Sphere 3D Inc.

Sphere 3D is a privately held company incorporated in 2009. We are a technology driven solution provider dedicated to harmonizing the hardware to software incompatibility gap while making the end user experience simple and seamless. Sphere is striving to bring about the next stage in Cloud Computing which will give users unlimited access to the applications or software they need, when they need it while maintaining the freedom to choose the cloud provider they want to store their data with. No downloads, installations or special configurations are required; No risk of computer crashes due to system incompatibilities nor special hardware requirements – simply point and run.
